Part 11: Personal verification Biometrics.
Part 15: Cryptographic information application.

WHAT'S NEW SINCE OCTOBER 2003

➔ **Creation of a new task force TF9 in charge of the ISO 24727 parts 1,2 & 3 on Smart Card interoperability.**

Convened by Teresa SWARZHOFF (USA)

2 meetings have already taken place, 3 others until next WG4 in Jan. 05.

CD ballot for part 1 & 2 being launched at next WG4 meeting

➔ **Launching of NP ISO 7816 part 13 on Commands for application management in multi-application environment.**

Project editor Matsuyoshi YACHIDA(Japan)

A first WD was presented at last WG4.

An editing committee is created under Mr Yachida`s responsibility in order to integrate the new contributions from GP, G,NL

WHAT'S NEW SINCE OCTOBER 2003

➔ **NP on "Secure Interoperable IC card Reader" balloted positively supported by 7 participating counties**

a specific number is requested for this standard,

a new task force is created: TF10

TF10 is convened by France

Project editor William VANOBERGEN

WHAT'S NEW SINCE OCTOBER 2003

➔ **Work progress on 7816 part 3**

Need for disconnecting the clause on "Synchronized Communication " from the rest of part 3.

REASONS

- Synch. Comm. is not mature enough.

- Market has an urgent need of part 3 (FCD).

Germany in charge of the study group on Synch. Comm.

WHAT'S NEW SINCE OCTOBER 2003

➜ **NP on informative annex on 7816 part 15**

      90% of positive votes

      USA is the fifth participating country

This project can be added to JTC1 SC17 Program of Work

➜ **Tag Allocation 7816 part 6**

    Only 127 possible tags,

    Strong recommendation to use the mechanism

    called "Tag allocation scheme" providing full freedom for assigning tag values
