Dear Members,

Following enquiries from some SC17 members, SABS is able to confirm that WiFi will be available at the Sun City resort during the SC17 Plenary Meeting and the Working Group meetings.

SABS and Platinum-Africa have tested the facilities, which have been found to be of a very high standard and should more than meet the needs of the delegates.

On testing the facilities the following results were obtained:

Area	Signal Strength	Bandwidth
Cascades lobby	90 %	100 Kbps
Eland conference room	75%	181 Kbps
Leopard conference room	91%	187 Kbps
Cheetah conference room	78%	100Kbps
Lynx conference room	75%	100Kbps
Civet conference room	71%	100Kbps
Lion conference room	64%	100Kbps
Face Breakaway area	71%	110Kbps
Ballroom	90%	188Kbps
Sun City Hotel lobby	81%	109Kbps
Cabanas lobby	70%	183Kbps
Palace lobby	70%	190Kbps

### Getting Connected

When in range of any of the above access points, and when the internet browser is opened the user is directed to a logon page.

On this page the user can either purchase access with his or her credit card, or enter a voucher number that can be purchased from hotel reception or logon by making use of selected service providers (Mweb, Internet Solutions, Sprint, Orange France) logon particulars.

The procedure is similar to systems used at all international venues and the conference delegates should have very little trouble to gain access to the system.

For further assistance please contact either the hotel concerned or the Conference Centre.
